

New Technologies and Architectures for Data Warehousing and Business Intelligence

Rick van der Lans

Overview

The world of business intelligence (BI) and data warehousing keeps evolving. Technologies such as data warehouse appliances, mashups, SaaS BI, federation servers, advanced analytics, and SOA, have become available and offer new possibilities to organisations. In addition, the user requirements for business intelligence have also been changing: some need operational BI, others are looking at self-service BI, the third group has a need for more advanced analytical capabilities, and the fourth group wants to integrate everything within their spreadsheets. In short, the world of data warehousing is changing. This two-day seminar focuses on all these new developments, insights, ideas, and technologies. It is a must for every data warehouse specialist.

Learning Objectives

- Learn what new data warehousing and business intelligence technologies could mean for an organisation
- Learn how to select the right business intelligence architecture
- Learn how to migrate to a modern architecture that exploits and benefits from new technologies
- Learn how to develop a more flexible warehouse environment
- Learn how to avoid well-known pitfalls
- Learn from real-life experiences with introducing new technologies

Seminar and Workshop Outline

Introduction

- The status of data warehousing and business intelligence
- New trends and their impact on business intelligence:
 - The coming of operational BI
 - Analytics of unstructured data
 - Cloud computing and SaaS BI
 - Advanced analytics and self-service analytics
 - New storage and database technology, including appliances and solid state disks

The Stages of a Data Warehouse Project

- Determining an implementation strategy: top down or bottom up
- Analyzing a decision process before analyzing information needs
- Can an approach based on Extreme Programming be used to design and implement data warehouses?

Selecting a Business Intelligence Architecture

- Discussion of the different BI architectures, including Kimball's Data Warehouse Bus Architecture, Inmon's Corporate Information Factory, DW 2.0, the Federated Architecture, the Centralized Warehouse Architecture, the Data Delivery Platform, and the SaaS BI Architecture
- When to use a Staging Area and when to use an Operational Data Store?
- Designing an architecture to support operational BI
- Can production databases be accessed to implement operational BI?
- Is the only advantage of MDX and cube-based technology improved query performance?
- What exactly is the Data Vault method? Can it co-exist with the existing architectures?
- Integrating a BI architecture with Business Process Modelling

New Virtualization Architectures: the Data Delivery Platform and SaaS BI

- The essence of the Data Delivery Platform: decoupling data consumers from data stores to increase flexibility
- How to migrate from a classic BI architecture to the Data Delivery Platform?
- Is the DDP comparable to a federated architecture?
- The ultimate virtualized BI architecture: SaaS BI (BlaaS)

The Market of Tools for Reporting and Business Analytics

- Categorization of BI tools, ranging from simple query tools and reporting tools to tools for business analytics, forecasting, and business process optimization
- The rise of the analytic applications; or "BI out-of-the-box"
- Collaborative analytics: the marriage of social networks and BI
- The role of the Enterprise Information Portal in a data warehouse
- What do they mean with (managed) self-service BI and with BI for the masses?
- Open source solutions from Actuate, JasperSoft, Jedox, SpagoWorld, and Pentaho
- Integrating mashups and business intelligence: the BI mashup
- Working with unstructured data

Audience

- Business Intelligence Specialists
- Data Warehouse Designers
- Business Analysts
- Technology Planners
- Technical Architects
- Enterprise Architects
- IT Consultants
- IT Strategists
- Systems Analysts
- Database Developers
- Database Administrators
- Solutions Architects
- Data Architects
- IT Managers

14-15 April 2011, London

Fee £1095 + VAT

Group Booking & Series

Discounts Available

Data Management Series

Data Modelling Fundamentals
1-2 March 2011, London
20-21 September 2011, London

Data Modelling Masterclass
3-4 March 2011, London
22-23 September 2011, London

Information Process Quality Improvement
11-13 April 2011, London

New Technologies and Architectures for Data Warehousing and Business Intelligence
14-15 April 2011, London

Series Discounts

Attend more than one seminar in this series and you will be entitled to the following discounts:

2nd course	10%
3rd course	15%
4th course	20%

Group Booking Discounts

20% discount for 5 or more registrations made at the same time. We regret that this offer cannot be used in conjunction with the Series Discount or any other discount.

Presenter

Rick F. van der Lans is an independent consultant, author and lecturer specialising

in business intelligence, data warehousing and database technology. He is the Managing Director of R20/Consultancy. Rick has advised many large companies worldwide on defining their data warehouse architectures. He is the chairman of the European BI and Data Warehousing Conference (organised annually in London), and a columnist for two major newspapers in the Benelux, and he writes regularly for the B-eye-Network. Rick has taught this seminar successfully to hundreds of delegates worldwide.

Endorsed by:

The Premier Organisation for data professionals in the UK

In-House Training

For an in-house presentation of this or any other IRM UK seminar, please contact us on:
T: +44 (0)20 8866 8366
E: customerservice@irmuk.co.uk

Registration Information

Registration Fees:

Full payment or a purchase order is due prior to the event.

Payment may be made in Sterling (£) or Euros (€). If paying in Euros the prevailing exchange rate of the country of the delegate or delegates' company is to be used. The total Euros remitted should be the amount required to purchase the sterling pound cost of the event on the day of payment. All delegates must add VAT* (17.5%) to their total event fees. VAT may be reclaimed by delegates from the tax authorities after the event.

*As from 1st January 2011 VAT rate increase to 20%

GROUP DISCOUNTS: 20% discount for 5 or more registrations made at the same time. We regret that this offer cannot be used in conjunction with the Series Discount or any other discount.

The registration fee includes the lectures, documentation, refreshment breaks and lunch on each day of the event. The cost of hotel accommodation is not included in the event fee.

UK Delegates: Expenses of travel, accommodation and subsistence incurred whilst attending any IRM UK event will be fully tax deductible by the employer company if attendance is undertaken to maintain professional skills of the employee attending.

Non-UK Delegates: Please check with your local tax authorities.

Cancellation Liability: In the event of cancellation of an event for any reason, IRM UK's liability is limited to the return of the registration fee only. IRM UK will not reimburse delegates for any travel or hotel cancellation fees or penalties.

Cancellation Policy: Cancellations must be received in writing at least two weeks before the commencement of the event and will be subject to a 10% administration fee. It is regretted that cancellations received within two weeks of the event date will be liable for the full fee. Substitutions can be made at any time.

Hotel Accommodation and Seminar Venue Details

IRM UK in association with JP Events, have arranged special discounted hotel rates at our various seminar venues and at other hotels nearby. Seminar venues will be confirmed upon registration. Alternatively, please visit our website.

Email: info@jpetem.com **www.jpetem.com**

Tel: +44 (0)84 5680 1138 **Fax:** +44 (0)84 5680 1139

Alternatively, you may book directly at the relevant hotels

Seminar Timetables

08.30 – 09.00 Registration (first day only) 09.00 – 12.30 Event
12.30 – 13.30 Lunch 13.30 – 17.00 Event

Mailing Information

As we are using multiple mailing lists, there is the possibility that you may receive more than one brochure. If this is the case or if there is an error in your address details, please forward the incorrect mailing labels to us so we can update our database immediately.

Please tick here if you are unable to attend a seminar but would like your name added to our mailing list.

IRM UK Strategic IT Training Ltd

IRM UK are specialist in strategic IT training for IT & business professionals and managers. Our carefully selected presenters have superior technical knowledge, teaching skills and a wide range of practical business experience. They are some of the most influential technologists, methodologists and original thinkers in IT today. Noted for the participation of top level decision makers from both the corporate, user and vendor communities, and the lucid analysis of critical strategic and management issues, our events are condensed and rigorous combining technical explanations with management advice and discussions of future directions. Please visit our website for comprehensive information on our events and speakers www.irmuk.co.uk.
